## REVOLUTIONARY TIME AND COST SAVINGS!

COMBINING TECHNOLOGY AND TRADITION SINCE 1976

**GK MACHINE BERRY FERRY is the lowest cost berry harvest aid in the market today!** Operation is simple, drop the tongue into one of the furrows and begin increasing field productivity by 30-40%. Workers walk to and from the machine while it self-propels evenly down the rows. It is operated by remote control to change speed and stop at any time.

- Harvest more produce in less time with 25% fewer workers than traditional methods.
- Your employees will be able to easily advance the machine from day one.
- Offers field workers the benefit of shade cover, a more comfortable work pace and easier body movement which helps reduce injuries.
- This machine will generally pay for itself in one year by increasing efficiency of harvest.
- Current customers report an increase in field productivity by 30-40%!

**CONTACT GK MACHINE TO TAKE ADVANTAGE OF WHAT YOUR COMPETITORS ALREADY KNOW, BERRY FERRY HARVESTING AIDES HAVE NUMEROUS BENEFITS TO OFFER YOUR OPERATION – SAME TIME, SAVE MONEY AND INCREASE PROFITS!**
