

GK3300 Nut Harvester

COMBINING TECHNOLOGY AND TRADITION SINCE 1976

The new “self-propelled” GK3300 Nut Harvester is built with the power to make quick work of your nut harvesting operation.

The harvester’s twin rod cleaning chains efficiently remove dirt before reaching the fan. The high volume suction fan was redesigned to operate at lower RPMs to create less dust.

The hydraulics provide smooth operation and dependability. The new spacious comfort cab features climate control, in-cab variable speed controls, rear camera and excellent visibility during operation.

Whether your orchard is large or small, we are confident that the GK3300 will make quick and efficient work of your nut harvesting process.

GK3300 Nut Harvester

COMBINING TECHNOLOGY AND TRADITION SINCE 1976

FEATURES:

- Increased fan cleaning capacity for wet harvesting conditions
- Chain and blower speed controlled from inside cab
- Single push button for end of row turnaround
- Chain bearings mounted outside frame for easy maintenance and longer life
- Oversized cab with AC and heat
- Powder coated for long lasting durable finish
- Weight over drive axle for excellent traction

SPECIFICATIONS:

Engine: Cummins Tier 4 Final, 4.5L, 160 hp
Drive System: Hydrostatic 2-speed
Chain Type: Almond/walnut/pecan/hazelnut – Twin Rod
Pickup Type: 48” belt with molded cleats or 48” twin rod
Chain Drive: Hydraulic with speed control
Windrow Width: 48”
Fuel Capacity: 65 gallons
Tires: Front: 26/12-12 6 ply (30 psi)
Rear: 400/60-15.5 14 ply (52 psi)

Overall Dimensions: Length – 280 inches,
Width – 95 inches,
Height – 83 inches

Weight: 12,800 pounds

Speed: Low 0-7 mph, High 0-14 mph

Cab: Air Conditioned/heated/rear camera

NUT HARVESTING EQUIPMENT LINE:

GK Machine has developed and manufactured a complete line of nut harvesting equipment designed for the rugged conditions of the Pacific Northwest. Made from quality components and reinforced with the strength, durability and power that you need for fast and efficient nut harvesting.

- Nut Harvester Self-propelled
- Nut Harvester PTO
- Nut Sweeper
- Orchard Leveler
- Pruning Tower
- Nut Cart
- Nut Tote Bin
