

# H9 BARE ROOT TREE DIGGER

COMBINING TECHNOLOGY AND TRADITION SINCE 1976

The new GK H9 Bare Root Tree Digger builds on the legacy of the GK H7, which has proven itself for over 25 years, as the premier tree and shrub digger in the nursery industry. This workhorse gets the job done fast and efficiently, and it is extremely easy to operate and maintain.

- Low center of gravity allows for easy maneuvering in all kinds of terrain and ground conditions.
- The H9 features a Cummins Stage V, 4-cylinder, 173 HP, 576 lb-ft torque for increased fuel economy and quieter operation.
- Designed to straddle rows, the H9 has optional track width adjustment while the tunnel offers a full 108" of vertical clearance.

The variable speed oscillating shaker arms efficiently remove soil and debris from the root structure for a fast and efficient harvesting process. With a variety of options and add-on attachments, you can perform multiple jobs with just one machine.

# H9 BARE ROOT TREE DIGGER

COMBINING TECHNOLOGY AND TRADITION SINCE 1976

## Standard Features:

- Cummins 4.5L, Stage V, 173 HP, 576 lb-ft torque, increased fuel economy and quieter operation
- 2-speed planetary gearbox, 0 - 4.5 MPH
- Pressure compensated hydraulics with full load sensing, 36 GPM at 2500 PSI
- Larger sized D4 undercarriage, 16" single grouser pads with mud holes and rock guards
- Variable speed oscillating shaker arms, 23"-32" wide blade
- Standard 24" digging depth or optional 36" max digging depth
- Upfitter fuse box panel for customer installed accessories
- Auxiliary hydraulics for optional chopper or tiller
- New larger touch screen controls
- New wider and longer cab
- LED lighting

## Dimensions:

- Machine length 300" w/ standard blade
- Machine length 313" w/ deep blade
- Machine width 73" - 93"
- Machine height 125"
- Machine weight 28,500 lbs
- Track length 119" center to center
- Track width 16"
- Track frame centers 44" - 64"
- Tunnel clearance 108"
- Ground pressure 7.5 PSI
- Fuel capacity 90 gallons

## Performance Options:

- Hydraulics: Sensor blade depth control  
Width adjustment for widening tunnel
- Implements: Tree chopper – removes tops of plants and trees  
Undercutter root pruning blade  
3-point hitch (left and right)  
Extended track grousers – for increased traction  
3/4" thick digger blade – for longer blade life  
Nose cones – keeps tracks from running over low branches or plants  
Pull arm toolbar - attaches other implements, such as planter, ripper, bed lifter, etc.  
4'-6' bed digger/shaker – digs trees and shrubs planted in beds
- Other: Glass windows  
Heater/AC kit
